

# Matrix® Fluid Management System

## Dealer Management System (DMS) Integration

Gain even more efficiencies by interfacing Matrix with your existing DMS. Provide billing and workflow improvements by automatically sharing fluid dispense records.

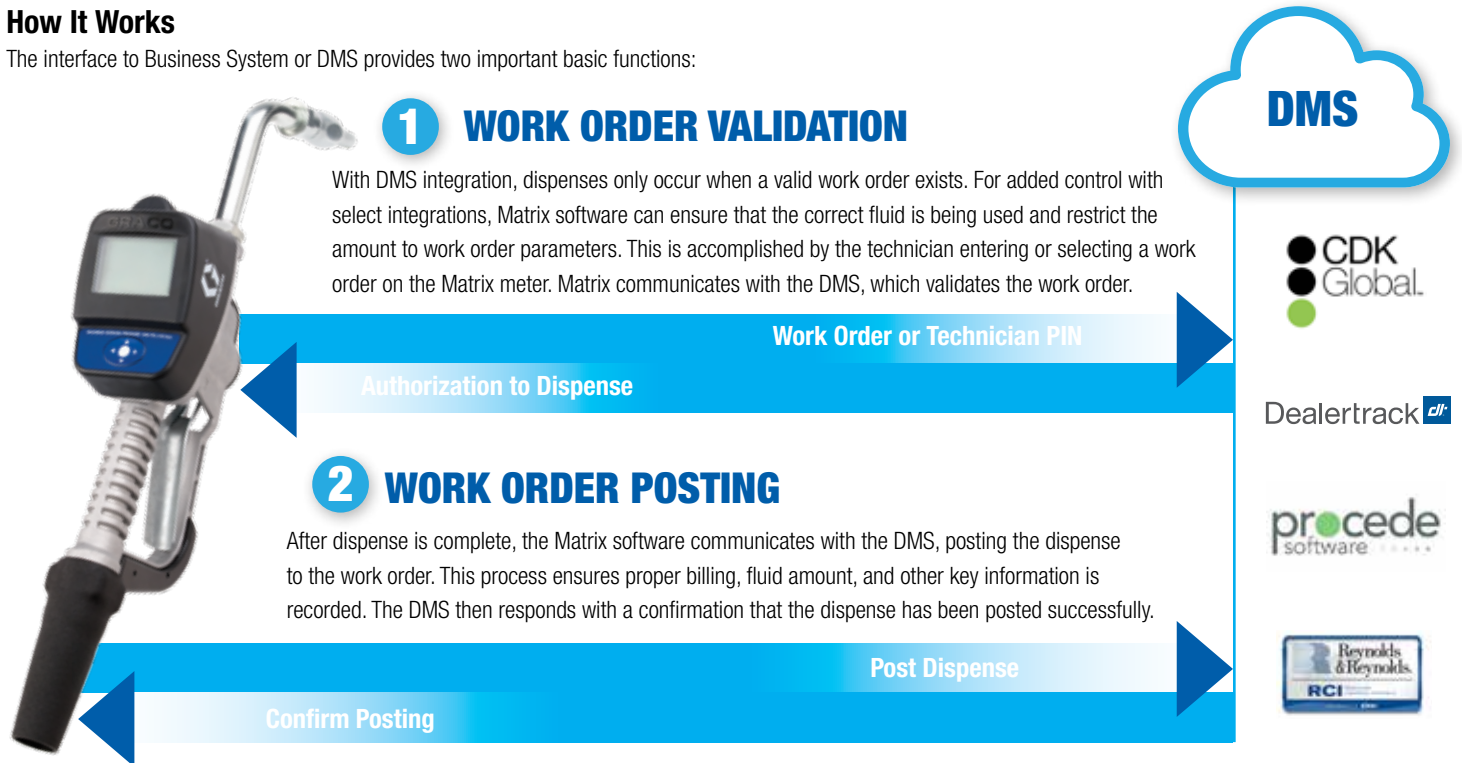

### Features and Benefits

- **Ease of Use** – Interface is invisible to the technician
- **Security** – Validate work orders
- **Automation** – Ensures that all dispenses are billed
- **Custom** – Integrate to DMS/Business System
- **Detailed Reporting** – Each job performed is recorded with information returned to DMS

### How It Works

The interface to Business System or DMS provides two important basic functions:

### Ordering Information

#### Matrix System Software

Part Number	Software Version	Integration
25C490	Premier	Dealertrack
256637		CDK
256638		Reynolds & Reynolds
128160		Proceed
129258		Proceed (additional site)
256634		3rd Party Interface
256635	Professional	3rd Party Interface
