After

FEATURE & BENEFITS

WEATHER
RESISTANT

Weather Resistant

Two heavy duty layers of Polyisobutylene (PIB) make Wakaflex® a tough, yet flexible flashing material resistant to UV, rain and snow. Its self-welding ability makes Wakaflex® extremely resistant to long term high temperatures, heavy rain and high winds.

EASY
INSTALLATION

Easy Installation Anywhere

Extremely flexible and stretches easily in both directions. No prefabrication or welding. No adhesives, mortar or mastic needed. Simply cut the material to the size needed, shape and install right on the roof. Use multiple pieces to fabricate complex or large flashing details.

SAVE
TIME & MONEY

GREEN

Wakaflex® is the lead-free solution to flash all critical areas of the roof. Lead is the most common flashing material used still to this day.

The Occupational Health and Safety Administration (OSHA) declared that "lead adversely affects numerous body systems and causes forms of health impairment and disease which arise after periods of exposure as short as days or as long as several years."¹

Any place lead is used on a tile roof, Wakaflex® works better and more safely.

¹According to U.S Department of Labor - OSHA: Substance Data Sheet for Occupational Exposure to Lead - 1926.62 App A, Section II Health Hazard Data, Part B.

NOTE: This product does not have an express warranty. In addition, SELLER MAKES NO EXPRESS OR IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE regarding this product.

WAKAFLEX® IS TOUGH AND DURABLE

WAKAFLEX® CAN ALSO BE USED FOR:

- Sidewalls
- Splayed Gables
- Hip & Ridge Junctures
- Solar Panels
- Pipe Penetrations
- Chimneys
- Tricky details that require weather protection
- Variety of repair applications

ABOUT BORAL ROOFING

Boral Roofing LLC is a subsidiary of Boral USA and is the country's largest premium provider of complete roofing and re-roofing solutions for architects as well as commercial and residential builders. Boral Roofing operates manufacturing plants throughout the U.S.

ABOUT BORAL NORTH AMERICA

Headquartered in Roswell, Georgia, Boral North America is a leader in key construction materials and building products markets with operations across the USA, Canada, and Mexico. In 2017 Boral acquired Headwaters Incorporated, expanding Boral's product offering and manufacturing and distribution footprint across North America. In construction materials, Boral has a national footprint and industry-leading position in the processing and distribution of fly ash – a by-product of coal combustion.

In building products, Boral manufactures and supplies cladding, roof tiles, windows, and other light building products for residential and commercial markets nationally. Boral's manufactured stone veneer includes leading brands Cultured Stone® by Boral®, Boral Versetta Stone®, Eldorado Stone®, Dutch Quality Stone®, and StoneCraft Industries®. Boral's light building products portfolio includes Boral TruExterior® Siding & Trim – a pioneer of the innovative poly-ash category of exterior building products – as well as shutters, gable vents, mounting blocks, and tool systems. In roofing, Boral is a leading manufacturer of clay and concrete roof tiles, and also produces composite polymer and stone-coated metal roof tiles.

Boral also has a 50% share of the Meridian Brick joint venture, a leading clay and concrete brick manufacturer which was formed with Forterra Brick in 2016.
