

Tandem Supply Systems

313529M

EN

For use with non-heated bulk supply of medium to high viscosity sealants and adhesive materials. For professional use only.

Not approved for use in European explosive atmosphere locations.

125 psi (0.9 MPa, 9 bar) Maximum Air Inlet Pressure - S20 3 in. rams

150 psi (1.0 MPa, 10 bar) Maximum Air Inlet Pressure - D60 and D200 3 in. rams

125 psi (0.9 MPa, 9 bar) Maximum Air Inlet Pressure - D200S 6.5 in. rams

Important Safety Instructions

Read all warnings and instructions in this manual.

Check the identification plate (ID) for the 6-digit part number of your tandem system. Use the following matrix to define the construction of your system, based on the six digits. For example, Tandem Part No. **TC2414** represents a Check-Mate tandem system (**TC**), pump (**24**), crossover option (**1**), and platen/ram option (**4**).

NOTE:

Systems with the TD as the first and second digits are Dura-Flo tandem systems. Some configurations in the following matrix cannot be built. See the Product Selection Guide for available systems.

To order replacement parts, see Parts on page 16. The digits in the matrix do not correspond to the Ref. Nos. in the Parts drawings and lists.

TC	24	1						4		
First and Second Digit	Third and Fourth Digit	Fifth Digit							Sixth Digit	
		Crossover Options							Platen/Ram Options	
		Pump Code	Electronic Crossover (Smart Motors only)	Pneumatic Crossover (Standard Motors only)	Fluid Filter	Depressurize/Recirculate Valve Material		Ram Size		
Carbon Steel	SST					See Table 1 for Selections				
TC (Tandem System with Check-Mate displacement pump)	(See Table 2 for 2-digit Check-Mate pump code)	1	✓		✓	✓		n/a		
		2	✓		✓		✓	n/a		
		3	✓		✓			n/a		
		4	✓				✓	n/a		
		5	✓					✓	n/a	
		6	✓						n/a	
		7			✓				S20, D60, D200, (3 in.)	
TD (Tandem System with Dura-Flo displacement pump)	(See Table 3 for 2-digit Dura-Flo pump code)	8		✓				D200S, (6.5 in.)		

All supply systems with DataTrak and 24 VDC or 100-240 VAC power supplies are ETL approved.

Warnings

The following warnings are for the setup, use, grounding, maintenance, and repair of this equipment. The exclamation point symbol alerts you to a general warning and the hazard symbol refers to procedure-specific risk. Refer back to these warnings. Additional, product-specific warnings may be found throughout the body of this manual where applicable.

WARNING

 	<p>SKIN INJECTION HAZARD</p> <p>High-pressure fluid from gun, hose leaks, or ruptured components will pierce skin. This may look like just a cut, but it is a serious injury that can result in amputation. Get immediate surgical treatment.</p> <ul style="list-style-type: none"> • Do not point gun at anyone or at any part of the body. • Do not put your hand over the spray tip. • Do not stop or deflect leaks with your hand, body, glove, or rag. • Do not spray without tip guard and trigger guard installed. • Engage trigger lock when not spraying. • Follow Pressure Relief Procedure in this manual, when you stop spraying and before cleaning, checking, or servicing equipment.
	<p>MOVING PARTS HAZARD</p> <p>Moving parts can pinch or amputate fingers and other body parts.</p> <ul style="list-style-type: none"> • Keep clear of moving parts. • Do not operate equipment with protective guards or covers removed. • Pressurized equipment can start without warning. Before checking, moving, or servicing equipment, follow the Pressure Relief Procedure in this manual. Disconnect power or air supply.
  	<p>FIRE AND EXPLOSION HAZARD</p> <p>Flammable fumes, such as solvent and paint fumes, in work area can ignite or explode. To help prevent fire and explosion:</p> <ul style="list-style-type: none"> • Use equipment only in well ventilated area. • Eliminate all ignition sources; such as pilot lights, cigarettes, portable electric lamps, and plastic drop cloths (potential static arc). • Keep work area free of debris, including solvent, rags and gasoline. • Do not plug or unplug power cords, or turn power or light switches on or off when flammable fumes are present. • Ground all equipment in the work area. See Grounding instructions. • Use only grounded hoses. • Hold gun firmly to side of grounded pail when triggering into pail. • If there is static sparking or you feel a shock, stop operation immediately. Do not use equipment until you identify and correct the problem. • Keep a working fire extinguisher in the work area.

! WARNING

	<p>EQUIPMENT MISUSE HAZARD</p> <p>Misuse can cause death or serious injury.</p> <ul style="list-style-type: none"> • Do not operate the unit when fatigued or under the influence of drugs or alcohol. • Do not exceed the maximum working pressure or temperature rating of the lowest rated system component. See Technical Data in all equipment manuals. • Use fluids and solvents that are compatible with equipment wetted parts. See Technical Data in all equipment manuals. Read fluid and solvent manufacturer's warnings. For complete information about your material, request MSDS forms from distributor or retailer. • Check equipment daily. Repair or replace worn or damaged parts immediately with genuine manufacturer's replacement parts only. • Do not alter or modify equipment. • Use equipment only for its intended purpose. Call your distributor for information. • Route hoses and cables away from traffic areas, sharp edges, moving parts, and hot surfaces. • Do not kink or over bend hoses or use hoses to pull equipment. • Keep children and animals away from work area. • Comply with all applicable safety regulations.
	<p>ELECTRIC SHOCK HAZARD</p> <p>Improper grounding, setup, or usage of the system can cause electric shock.</p> <ul style="list-style-type: none"> • Turn off and disconnect power cord before servicing equipment. • Use only grounded electrical outlets. • Use only 3-wire extension cords. • Ensure ground prongs are intact on sprayer and extension cords. • Do not expose to rain. Store indoors.
	<p>SPLATTER HAZARD</p> <p>During blowoff of platen splatter may occur.</p> <ul style="list-style-type: none"> • Use minimum drum removal air pressure.
 	<p>TOXIC FLUID OR FUMES HAZARD</p> <p>Toxic fluids or fumes can cause serious injury or death if splashed in the eyes or on skin, inhaled, or swallowed.</p> <ul style="list-style-type: none"> • Read MSDS's to know the specific hazards of the fluids you are using. • Store hazardous fluid in approved containers, and dispose of it according to applicable guidelines. • Always wear impervious gloves when spraying or cleaning equipment.
	<p>PERSONAL PROTECTIVE EQUIPMENT</p> <p>You must wear appropriate protective equipment when operating, servicing, or when in the operating area of the equipment to help protect you from serious injury, including eye injury, inhalation of toxic fumes, burns, and hearing loss. This equipment includes but is not limited to:</p> <ul style="list-style-type: none"> • Protective eyewear • Clothing and respirator as recommended by the fluid and solvent manufacturer • Gloves • Hearing protection

Troubleshooting

NOTE: Refer to the **Supply System Repair-Parts manual** for specific ram troubleshooting. Refer to the **Check-Mate Pump Packages manual** for pump troubleshooting.

1. Follow **Pressure Relief Procedure**, page 13, before disassembling any part of the supply system.
2. Disconnect power before repairing the supply system.
3. Check all possible problems and causes before disassembling the supply system.

Problem	Cause	Verification	Solution
No power.	Customer supplied main circuit breaker tripped.	Measure voltage across disconnect switch; voltage should measure between 190 and 250 VAC.	Determine cause of the tripped circuit breaker. Then repair fault and reset main circuit breaker.
No graphics on screen.	No graphics are shown on display screen.	Verify green LED on bottom of display is illuminated.	<p>If green LED is not illuminated:</p> <ol style="list-style-type: none"> 1. Check for DC power at display. Replace faulty cable/component. 2. Replace faulty display module. <p>If green LED is illuminated, check red LED. If red LED is illuminated, replace display module.</p>
	Backlight does not power up.	Can see display, but backlight is not illuminated when a button is pressed.	Replace display module.

Problem	Cause	Verification	Solution
Missing module.	Modules not on network.	Verify attached modules through Advanced Setup screens 4 and 5.	Enter Setup screen and scroll to Advanced Setup screens 4 and 5. These screens lists all components corresponding software revision number on network.
	Cable disconnected.	Verify all green LEDs are illuminated and yellow LEDs are flashing.	Reconnect/replace faulty cable.
	Module with wrong selector switch setting.	Verify selector switch is set correctly.	<ol style="list-style-type: none"> 1. Remove power from unit. 2. Remove access cover and visually check rotary switch setting. 3. If incorrect, set to correct setting. See Selector Switch, page 12, for selector switch locations. 4. Replace access cover.
Does not crossover.	Alternate ram has an empty sensor activated.	Verify ram has material.	Replace empty drum.
	Alternate pump is not primed.	Verify alternate ram is ready to run.	Prime pump.
	Alternate pump has an active alarm.	See Alarm Codes and Troubleshooting in the Tandem Supply Systems Operation manual.	See Alarm Codes and Troubleshooting in the Tandem Supply Systems Operation manual.

Selector Switch

Ensure the selector switch (inside the fluid control module) is set correctly for each ram.

1. Turn power off.
2. Remove access cover (D).

FIG. 1:

3. For ram A, ensure the selector switch (S) is set to "A". If it is not, use a flat head screwdriver to adjust the switch to "A".

4. For ram B, ensure the selector switch (S) is set to "B". If it is not, use a flat head screwdriver to adjust the switch to "B".

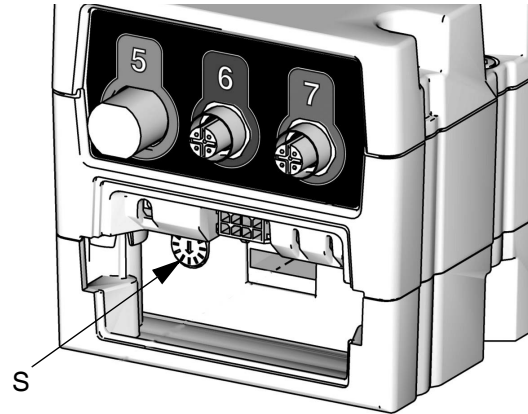

FIG. 2:

5. Replace access cover.
6. Turn power on.

Repair

Pressure Relief Procedure

1. Lock the gun/valve trigger.
2. Press On/Off key . If system is On, display will highlight . Select  to turn off.

FIG. 3: System Function Screen

3. Turn off the air motor slider valve (BF) on both ram A and B.
4. On both ram A and B, turn off the main air slider valve (BA). Set the ram director valve (BC) to the down position. The ram will slowly drop.
5. Unlock the gun/valve trigger.
6. Hold a metal part of the gun/valve firmly to the side of a grounded metal pail, and trigger the gun/valve to relieve pressure.
7. Lock the gun/valve trigger.
8. On both ram A and B, open the drain valve and/or the pump bleed port. Have a container ready to catch the drainage.

If you suspect that the spray tip/nozzle or hose is completely clogged, or that pressure has not been fully relieved after following the steps above, very slowly loosen the tip guard retaining nut or hose end coupling and relieve pressure gradually, then loosen completely. Now clear the tip/nozzle or hose.

TI10438A

FIG. 4: Integrated Air Controls

Ram Repair

See manual 313527 for ram and platen repair procedures and replacement parts.

Pump Repair

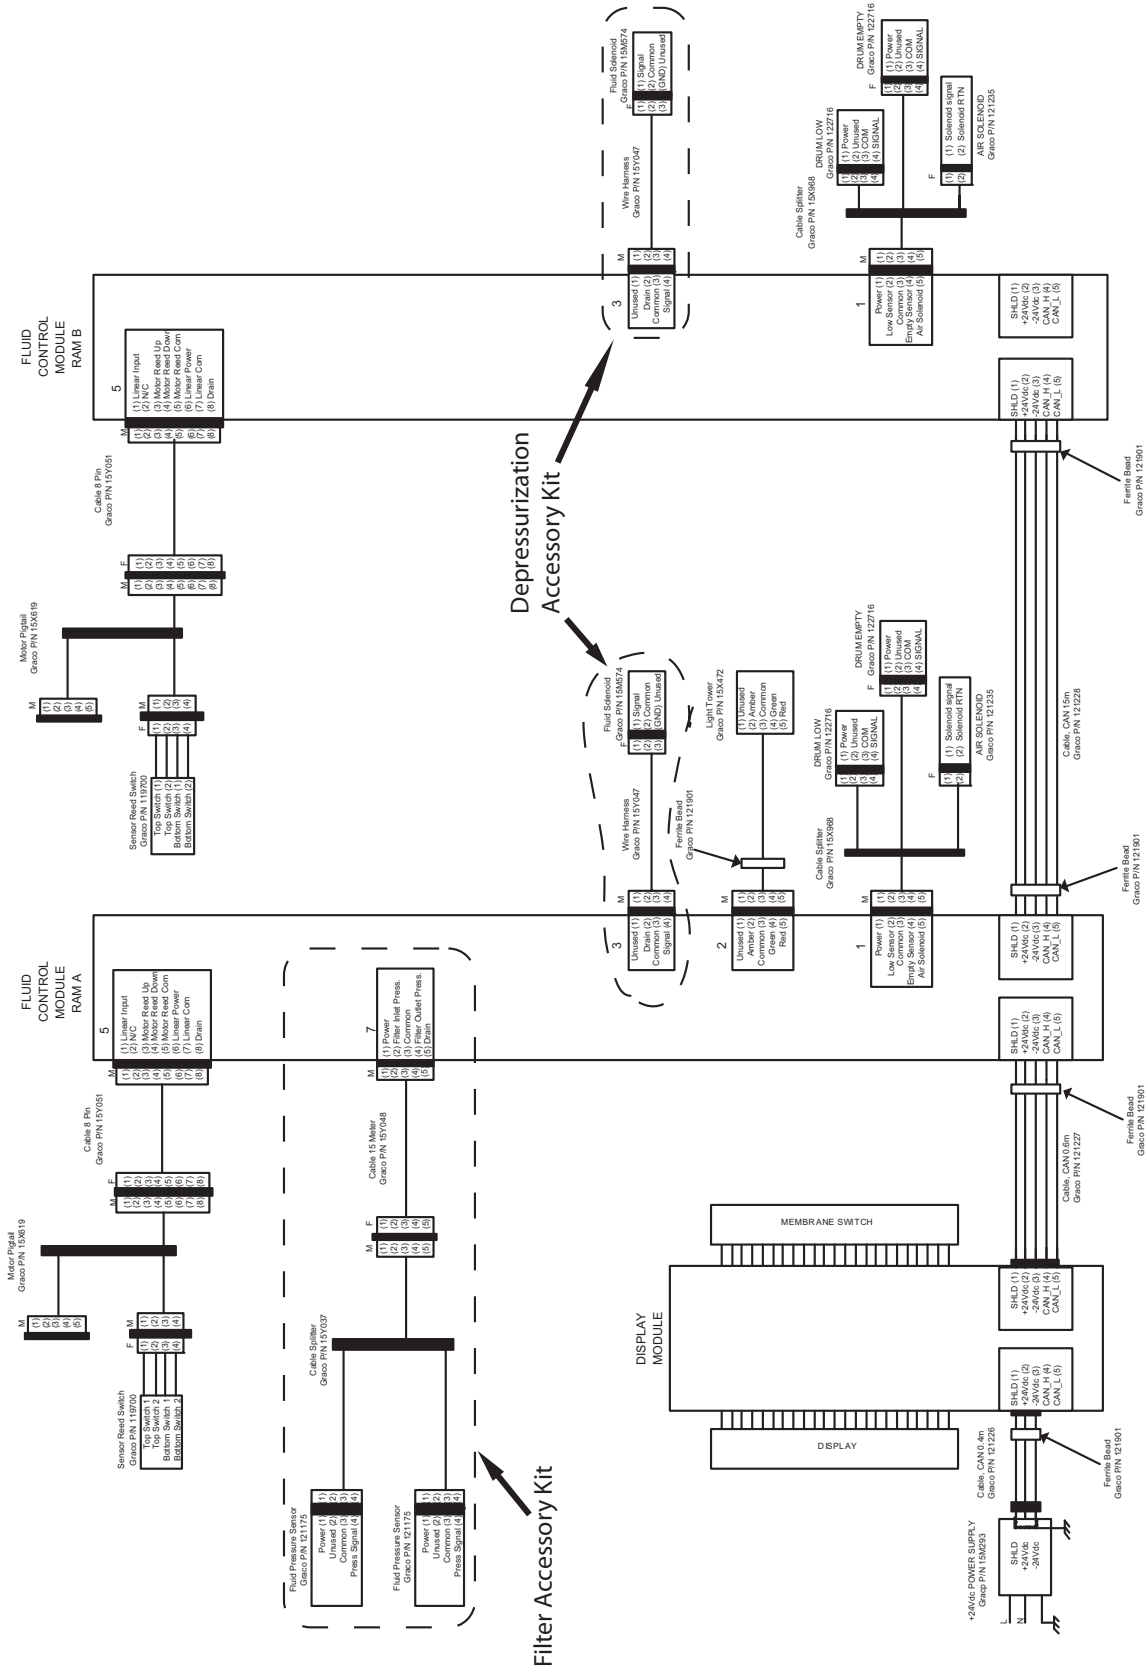

See pump manuals for pump repair procedures and replacement parts.

See manual 311238 (Nxxxxx NXT models), 312796 (Mxxxxx NXT models), or 334644 (Xtreme XL) for air motor repair procedures and replacement parts.

Crossover Schematics

See page 14 for a schematic of electronic crossover systems and page 15 for a schematic of pneumatic crossover systems.

Electronic Crossover Schematic

Accessories

Communications Gateway Module

Communications Gateway Module CGMxx0 requires **CGK010 Mounting Kit**. Use reference kit noted below for mounting a CGM on electric tandem supply system. See manual 313138 for installation and repair parts.

Communications Gateway Module Mounting Kit	Communications Gateway Module Part No.	Fieldbus
CGK010	CGMDN0	DeviceNet
	CGMEP0	EtherNet/IP
	CGMPB0	PROFIBUS
	CGMPN0	PROFINET

See manual 312864 for CGM setup instructions.

Pressure Sensor Accessories

Sensors

Part No.	Description
121175	Pressure sensor filter

Cables

Part No.	Description
15Y049	M12 male/female reverse key cable
15Y037	Pressure sensor splitter cable

Technical Data

Max air input pressure (supply system)	psi (MPa, bar) / Air inlet size
S20 - 3 in. single post, 5 gal. (20 L)	125 psi (0.9 MPa, 9 bar) / 1/2 npt(f)
D60 - 3 in. dual post, 16 gal. (60 L), 8 gal. (30 L), 5 gal. (20 L),	150 psi (1.0 MPa, 10 bar) / 3/4 npt(f)
D200 - 3 in. dual post, 55 gal. (200 L), 30 gal. (115 L), 16 gal. (60 L), 8 gal. (30 L), 5 gal. (20 L)	150 psi (1.0 MPa, 10 bar) / 3/4 npt(f)
D200s - 6.5 in. dual post, 55 gal. (200 L), 30 gal. (115 L)	125 psi (0.9 MPa, 9 bar) / 3/4 npt(f)
Max fluid, air working pressure, and weight (displacement pump)	For Check-Mate pump packages, see manual 312376. For Dura-Flo pump packages, see manuals 311826, 311828, 311833.
Pump Wetted parts	For Check-Mate displacement pumps, see manual 312375. For Dura-Flo displacement pumps, see manuals 311717, 311825, 311827.
Platen/Ram Codes (page 5): Part number, size, platen; Wetted parts	
A, B, C, F, G, H: 255662, 55 gal. (200 L)	PTFE, EPDM, PTFE coated aluminum, zinc plated carbon steel, 316 sst
J, L, M, R, S, T: 255663, 55 gal. (200 L)	EPDM, aluminum, zinc plated carbon steel, 316 sst
4: 255661, 30 gal. (115 L)	zinc plated carbon steel, EPDM, sst, fluoroelastomer
2: 257728, 5 gal. (20 L)	Electroless nickel, polyurethane, carbon steel, polyethylene, nitrile, zinc plated carbon steel, buna, 316 sst, 17-4PH sst
1, 3: 257729, 5 gal. (20 L)	Stainless steel, polyurethane, PTFE coated nitrile, polyethylene, nitrile, PTFE, 303 sst, 304 sst, 316 sst, 17-4PH sst
0, D, E: 257734, 8 gal. (30 L)	
U, V, W: 257738, 16 gal. (60 L)	
6, 7, 8, 9: 257731, 5 gal. (20 L)	Electroless nickel, aramind reinforced elastomer, rubber-based PSA, polyurethane, polyethylene, nitrile, zinc plated carbon steel, buna, 1018 carbon steel, 304 sst, 316 sst, 17-4PH sst
K, N, P: 257736, 8 gal. (30 L)	
X, Y, Z: 257741, 16 gal. (60 L)	
Ambient operating temperature range (supply system)	32-120 °F (0- 49°C)
Sound data	See separate air motor manual.
External power supply requirements (DatraTrak)	
AC power units	100-240 VAC, 50/60 Hz, single phase, 1.2 amps max draw
DC power units	24 VDC, 1.2 amps max draw

Graco Standard Warranty

Graco warrants all equipment referenced in this document which is manufactured by Graco and bearing its name to be free from defects in material and workmanship on the date of sale to the original purchaser for use. With the exception of any special, extended, or limited warranty published by Graco, Graco will, for a period of twelve months from the date of sale, repair or replace any part of the equipment determined by Graco to be defective. This warranty applies only when the equipment is installed, operated and maintained in accordance with Graco's written recommendations.

This warranty does not cover, and Graco shall not be liable for general wear and tear, or any malfunction, damage or wear caused by faulty installation, misapplication, abrasion, corrosion, inadequate or improper maintenance, negligence, accident, tampering, or substitution of non-Graco component parts. Nor shall Graco be liable for malfunction, damage or wear caused by the incompatibility of Graco equipment with structures, accessories, equipment or materials not supplied by Graco, or the improper design, manufacture, installation, operation or maintenance of structures, accessories, equipment or materials not supplied by Graco.

This warranty is conditioned upon the prepaid return of the equipment claimed to be defective to an authorized Graco distributor for verification of the claimed defect. If the claimed defect is verified, Graco will repair or replace free of charge any defective parts. The equipment will be returned to the original purchaser transportation prepaid. If inspection of the equipment does not disclose any defect in material or workmanship, repairs will be made at a reasonable charge, which charges may include the costs of parts, labor, and transportation.

THIS WARRANTY IS EXCLUSIVE, AND IS IN LIEU OF ANY OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTY OF MERCHANTABILITY OR WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.

Graco's sole obligation and buyer's sole remedy for any breach of warranty shall be as set forth above. The buyer agrees that no other remedy (including, but not limited to, incidental or consequential damages for lost profits, lost sales, injury to person or property, or any other incidental or consequential loss) shall be available. Any action for breach of warranty must be brought within two (2) years of the date of sale.

GRACO MAKES NO WARRANTY, AND DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, IN CONNECTION WITH ACCESSORIES, EQUIPMENT, MATERIALS OR COMPONENTS SOLD BUT NOT MANUFACTURED BY GRACO. These items sold, but not manufactured by Graco (such as electric motors, switches, hose, etc.), are subject to the warranty, if any, of their manufacturer. Graco will provide purchaser with reasonable assistance in making any claim for breach of these warranties.

In no event will Graco be liable for indirect, incidental, special or consequential damages resulting from Graco supplying equipment hereunder, or the furnishing, performance, or use of any products or other goods sold hereto, whether due to a breach of contract, breach of warranty, the negligence of Graco, or otherwise.

FOR GRACO CANADA CUSTOMERS

The Parties acknowledge that they have required that the present document, as well as all documents, notices and legal proceedings entered into, given or instituted pursuant hereto or relating directly or indirectly hereto, be drawn up in English. Les parties reconnaissent avoir convenu que la rédaction du présente document sera en Anglais, ainsi que tous documents, avis et procédures judiciaires exécutés, donnés ou intentés, à la suite de ou en rapport, directement ou indirectement, avec les procédures concernées.
