

Lubrication Solutions for Your Food or Beverage Business

We Know Factories

Having a stoppage on your production line means wasted labor and less production. Graco automatic lubrication systems can help your business run smoothly to increase your companies bottom line profit. We'll partner with you to make sure the job is done right.

PROVEN QUALITY. LEADING TECHNOLOGY.

Proper Lubrication Saves Money

With a Graco automatic lube system, maintenance is easy. A central pump is located at a convenient, accessible location and replenishes lubricants in small metered amounts to ensure equipment is lubricated when it's needed most – while it's working. Protect your investment by keeping contaminants out of your equipment and more money in your pocket.

Graco Lubrication Equipment Reduces Operating Costs by:

- Measurable energy savings
- Increase plant efficiencies
- Increase component life
- Reduce wasted labor
- Increased product quality

G3™ Electric Lubrication Pumps

The heart of the lubrication system – a durable and reliable workhorse that keeps your equipment moving. Engineered and built to tell you how your lube system is performing with optional feedback accessories. IP69K rated to withstand the frequent wash downs typically found in the food and beverage business.

**IP69K Rated
Safe for
Wash Down
Areas!**

LubePro™ Pneumatic Lubrication Pumps

For nearly 50 years, Graco Fire-Ball™ pumps have been a mainstay in the lubrication marketplace for durability and long life. LubePro™ series pumps leverage the same proven quality and leading technology, offering a robust solution where high output and fast lubrication cycles and flow rates are needed to optimally lubricate equipment while it's working.

Graco Lubrication Equipment Works as Hard as You.

You can be sure your equipment is running at peak performance with top quality lubrication equipment from Graco. Save your expensive technicians hours for scheduled facility maintenance.

Food For Thought: Let Graco Lube it! Precision Machined for Reliability with Advanced Monitoring

Trabon® MSP™ Divider Valves

The Trabon MSP Series sets the industry standard for quality, reliability, and ease-of-use features. Pre-assembled and tested base plates save installation time and labor! Offered in zinc plated carbon steel and stainless steel.

GL-32™, GL-33™, GL-42™, and GL-43™ Injectors

Accurate, reliable, and adjustable lubrication with easy set-up and design that works for grease or oil systems. Add or subtract lube points without redesigning your system. All injectors come standard with fluoroelastomer seals for use with synthetic lubricants and high temperature applications – up to 350° F (176° C). Available in stainless or carbon steel for oil or grease.

CSP Series Progressive Valves

Series progressive metering in a one piece block—no assembly required! Match honed for precise lubrication to protect your equipment. Space efficient design with 6 to 22 outlets. Outlets can be combined to meet larger bearing needs. Variety of fittings available to fit your specific application.

Stainless Steel Accessories

We offer a complete line of products to give you the information you need to ensure your machine is functioning at peak performance. Solve lubrication problems with system accessories before they shut you down.
